The Demerit of having a technique that's passed down from generations is having a user's manuel
The demerit is that information about the technique is easily leaked
You were a member of the Tabby clan, weren't you?

That's why you know so much about the Meowless technique
However, even in the Kitty clan only a scant few know about this

Take the litter and the catnip, then smash those two different expressions of kitty and push out imaginary meow

Yet the freshly awakened wielder of the Meowless technique was right before my eyes

He was probably the strongest cat of the modern age

I wanted to reject him.
I wanted to bring him to his knees.
I wanted to take down the pinnacle of feline world.
And the Tabby clan that rejected me.
I twisted myself to try to affirm myself

That was the moment I lost.
